

SERVER-LESS OFFICE

- No servers to buy, repair, update or maintain!
- Secure Virtual Private Network(VPN) connection.
- Access your data from work, home, in the field.
- Your data is backed up to tape daily.
- Immediately available data to Web customers.
- Multiple servers with battery backup.
- Includes license for Paper-Less Archive System.

Let Complete Computer Solutions maintain the server and backup your data for you! We have some of the fastest servers on the market for you to get your billing and accounting done while they are housed and maintained here in our office.

- No more servers for you to buy and maintain, while connections are made on a secure Virtual Private Network (VPN) connection with secure hardware encryption from Windows desktops in your offices.
- With your high-speed Internet connection, we supply a VPN router to connect you to our servers. You are then able to login to a CCS server with your name and password, and most all of your normal daily and monthly billing tasks operate in the same way; no re-training of staff! You will hardly notice any difference!
- Backups are performed daily, and you can also perform a fast to-disk backup on demand before updates, etc. as needed.
- Our servers are powered by heavy-duty battery backup uninterruptible power supplies and we keep spare servers in the event of equipment failure.

Additional services soon available: Invoice printing/mailing and Statement printing/mailing.

Reasonable monthly rates.

Includes Paper-Less/Less-Paper Archive System Solution!

Save paper and streamline your office. Anything that is currently printed from Complete Computer Solutions Accounting Packages may be saved and retrieved electronically.

- View edit lists and registers on the screen before printing, or don't print them at all! No need to run to the printer for an edit list. Choose what to save, what to print, what doesn't need printing.
- Archive electronic copies of anything that is "printed".
- Documents are indexed by date & time, login, and title.
- Documents may be e-mailed or recalled from the archive for audit or review.
- Documents may be viewed with any web browser, anywhere!

View "printed" report data on the screen

Print only what you need

Archive print data to tape or CD for later retrieval

E-mail printed data to your accountant or to managers
